SYMPOSIUM AND CO-CREATION WORKSHOP

Call for Posters

Climate Change and Health Symposium

We are pleased to invite you to submit poster abstracts for the upcoming Climate Change and Health Symposium.

Abstract submission deadline: 21 June 2026

Conference date: 7 July 2026

Venue: Neimënster Abbey

This conference will bring together experts and stakeholders to explore the health impacts of climate change, showcase emerging research, and discuss practical solutions for building healthier, more resilient societies and health systems.

Conference Objectives

The conference aims to:

- Showcase Luxembourg's scientific work in the field of climate change and health, complemented by insights and experiences from neighbouring countries;
- Discuss measures to build a more resilient and healthier Luxembourg, including resilient and low-carbon health systems;
- Present state-of-the-art knowledge on current and projected health impacts of climate change, as well as opportunities for prevention, adaptation, and co-benefits relevant to Luxembourg.

Submissions from all countries are welcome. We welcome poster submissions on a broad range of topics related to climate change and health, contributions addressing the above-mentioned themes are strongly encouraged. Please note that poster presenters are responsible for their own travel and accommodation costs.

Submission Guidelines

Authors are invited to submit an abstract for poster presentation by filling out [this form](#).

LUXEMBOURG

SYMPOSIUM AND CO-CREATION WORKSHOP

Poster Presentation

Accepted posters will be displayed throughout the conference and highlighted during a dedicated “Solutions Village” taking place during the lunch break. This interactive session will provide participants with the opportunity to engage directly with presenters, exchange ideas, discuss innovative solutions, and foster networking across disciplines and sectors.

The Solutions Village aims to create a dynamic and collaborative space for discussion, showcasing research, initiatives, policies, and practical approaches addressing the health impacts of climate change and the health co-benefits of mitigation.

Further information regarding poster dimensions, format requirements, and presentation logistics will be communicated upon acceptance.

Poster submissions and poster exhibition are free of charge. Authors of accepted posters are welcome to attend the full conference as well.

Who Should Submit?

We encourage submissions from:

- Researchers and academics
- Healthcare professionals
- Public health institutions
- NGOs and civil society organisations
- Policymakers and government representatives
- Students and early-career professionals
- International and regional collaborators

Review Process

All submissions will be reviewed by the scientific committee based on:

- Relevance to the conference themes
- Scientific or practical quality
- Potential contribution to discussion and policy development
